

## **PROGRAM TIP: Using Your On-Call Cleanups**

Please call 925-449-7300 to make an appointment before setting out an appliance or e-waste item (*see info on reverse side*), and up to 3 cubic-yards of garbage. We run a special route to provide this service. Residents of single-family homes are entitled to three On-Call Cleanups every twelve months for no additional charge.

## **PROGRAM TIP: Disposing of E-waste**

Electronics need special handling. You can properly dispose of a number of e-waste items through the On-Call Cleanup Program (*see info on reverse side*) and through your regular weekly recycling service. Common e-waste items collected through the Cleanup Program include computer monitors, CPUs, laptops, printers, scanners, fax machines, televisions, VCRs, and stereo components. E-waste peripherals like keyboards, mice, power strips, modems, and small desktop speakers can be placed in your blue recycling cart.
