

PROGRAM TIP: Scheduling On-Call Cleanups

Please make an appointment with us before setting out an appliance or e-waste item and up to 3-cubic yards of garbage. We run a special route to provide this service. Route stops are predetermined according to our list of appointments. Residents of single-family homes are entitled to three On-Call Cleanups each year for no additional charge.

PROGRAM TIP: Improve Service by Not Overloading

When the lid does not fully close or materials are tightly wedged inside, it's difficult for us to empty a cart. Servicing overloaded carts can damage equipment, create a mess, and slow down service. If you have more garbage, recyclables or organic materials than will fit into the appropriate cart, please contact us to arrange for additional service.
