# Small Changes add up to Big Results in Reducing Waste

- Before you replace an item, see if it can be repaired. If you do purchase something new, find the highest quality/longest lasting option possible.
- Opt for used products. Reuse or rethink what you already have or purchase a "gently used" item from a resale/thrift shop. Browse reuse websites (*listed on reverse*) or share/trade items with friends and neighbors.
- Choose reusables. Make it a habit to use travel mugs, reusable water bottles, and reusable shopping bags/totes.
